

FULL SPECTRUM ENZYMES

Enzymology Research Center, Inc. (ERC) is a leading supplier of individual and custom blended enzymes from microbial, plant and animal sources.

ERC ENZYMES ARE:

- Clinically tested
- Non-GMO
- GRAS
- Kosher
- Beneficial in a wide variety of food and dietary supplement applications

ASTRAZYME® is a unique and proprietary combination of enzymes, minerals and herbs. It has been clinically proven to break down Hemp Seed Protein as well as significantly enhance both amino acid and branch chain amino acid absorption quantities and rates.

ASTRAZYME® BENEFITS INCLUDE:

- lower daily intake of protein because of higher absorption rates
- faster recovery and recuperation times
- reduced stress on internal organs because the proteins are being processed more efficiently and effectively
- enhanced lean muscle mass (with proper exercise program)
- higher energy levels

AstraZyme® is:
Non-dairy, non-soy, non-GMO, gluten free, allergen free and vegan

CHART 1
HEMP SEED PROTEIN
percent of amino acids
digested within 45 minutes
INCREASED BY >57%

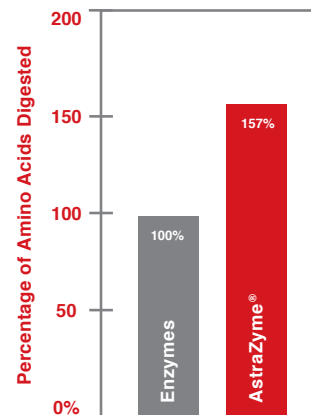

CHART 2
HEMP SEED PROTEIN
percent of branch chain
amino acids digested
within 45 minutes
INCREASED BY >42%

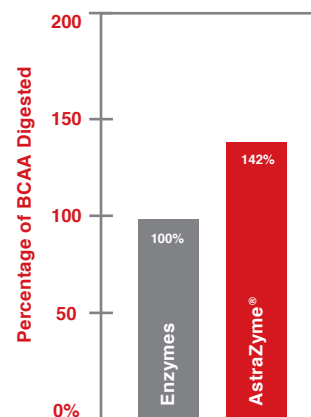

CHART 3
HEMP SEED PROTEIN
quantity of amino acids
absorbed **INCREASED**
BY >42% in CACO-2 Cells
in 60 minutes

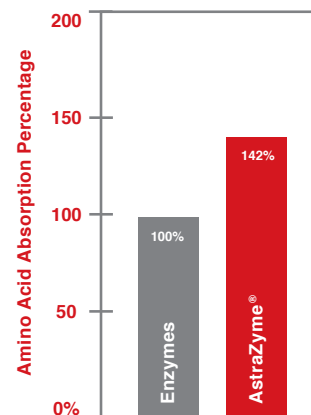

CHART 4
HEMP SEED PROTEIN
quantity of branch chain
amino acids absorbed
INCREASED BY >69% in
CACO-2 Cells in 60 minutes
